**Title:** Severe Weather Spotter Training for Child Care Providers

**Training Goal:** Child Care providers will identify when severe weather indicates they should take shelter during hours of operation

### **Learning Objective(s): Participants will**

- Be introduced to how radar works and acquire information on raising their situational awareness during severe storm season
- Distinguish between classifications of thunderstorms according to how they develop
- Articulate safety measures they should take during operating hours if severe storms are in the area
- Demonstrate appropriate reporting procedures to emergency preparedness authorities when threatening conditions are identified

Topical Outline of Content	Training Method(s)	Time (in minutes)
1. Introduction	Lecture/Power point	
A. How the Radar Works and The Need for Spotters		10
B. Building Situational Awareness		10
2. Thunderstorms Basics	Lecture/Power point	
A. Three Ingredients for Thunderstorm Development		15
B. Single Cell Thunderstorms		15
C. Multi Cell Cluster/Squall Line Thunderstorms		15
D. Super Cell Thunderstorms		15
3. Safety and Severe Weather Reporting	Lecture/Power Point	
A. Severe Thunderstorm Safety		10
B. Preferred Methods of Reporting		10
C. Reporting Criteria		10
4. Group Storm Spotting Quiz		10

**Method(s) of Outcome Evaluation:** Pre and Post test may be given; Participants' discussion and responses to lecture and resource materials
